

Hack postgres Source Code: Vol I

Chapter 1 : C & Rust

1.1 Usage of comments in postgres 's main.c

Out of nowhere, Go was getting flashes of images about comments in C & Rust while Pi was kissing her passionately at the car door in restaurant's parking lot.

Flashes of Images in Go's mind -

C:

```
int
main() {

    //This is line comment

    /*
    This is
    multiline comment or block comment
    */

    /*
    * This is postgres's style of
    * multiline comment
    */

    return 0;
}
```

Rust:

```
fn main() {

    // This is line comment

    /*
    This is
    block comment
    */

    /*
    * This is postgres's style of
    * block comment
    */
}
```

```
    */  
}
```
